Hiroshima J. M. Sci.

CONTENTS

Vol. 30, No. 1, March, 1981

S. Tsukiai. 5β-cholestane-3α, 27-diol: NAD^+ oxidoreductase and 3α-hydroxy-5β-cholestan-27-al: NAD^+ oxidoreductase in rat liver extract.....1-7
H. Yamashina, Y. Matsuura, M. Tamura, M. Higo and T. Fujii. The effects of adrenocortical steroids on the redness and hemorrhage at the operation wound after pacemaker implantation.....9-13
T. Maetani, M. Tamamoto, R. Miyoshi, Y. Kawazoe and T. Hamada. Prosthetic treatment in a patient with osteogenesis imperfecta.....15-19
F. Ishibashi, T. Sato, M. Tsubota and R. Kawate. Inhibition of pancreatic B-cell function by D-mannoheptulose.....21-27
T. Onoda and K. Nishigami. Effects of N-acetylglucosamine on cell surface glycoprotein and cell behavior of glucosamine requiring mutant derived from Chinese hamster lung cells.....29-34
H. Imamura and N. Okamoto. Closure of the ductus arteriosus in normal and malformed human heart.....35-42
R. Singh. Legalized abortion and profile of women at New Delhi.....43-46

Vol, 30, No. 2, June, 1981

T. Kawamoto, G. Kajiyama, A. Maruhashi, T. Mizuno, K. Yamada, M. Fujiyama and A. Miyoshi. The influence of dietary cholesterol on the lithogenesity of bile in rats treated with clofibrate. (II).....47-54
F. Sawano. Characteristic impregnation of osmium tetroxide in the mouse steroid hormone secreting cells.....55-59
H. Kashiwa, Y. Nishi, T. Usui and Y. Seino. A case of rickets with normal serum level of 1, 25-$(OH)_2$D and low 25-OHD.....61-63
Y. Nishi, S. Hatano, N. Horino, T. Sakano and T. Usui. Zinc concentration in leukocytes mononuclear cells, granulocytes, T-lymphocytes, non-T lymphocytes and monocytes.....65-69
G. Kajiyama, T. Kawamoto, M. Fujiyama, A, Maruhashi and A. Miyoshi. Effect of the purified unsaponifiable fraction of soybean in combination with ursodeoxycholic acid on cholesterol saturation of bile and stone dissolution in gallstone patients.....71-83
G. Kajiyama, T. Kawamoto, T. Hayashi and M. Ohki. Effect of the purified unsaponifiable fraction of soybean on the lipid metabolism and gallstone in mice.....85-92
H. Tomioka and H. Saito. RNA polymerases and their stimulating factor from leukemia L1210 ascites cells.....93-97
M. Katoh. Studies of lysosomal enzymes in macrophages. III. Lysosomal enzyme activities in cultured macrophages infected with some species of mycobacteria.....99-107
K. Ohmae and Y. Satow. Urokinase therapy in the early stage of acute myocardial infarction.....109-114
Y. Tanaka. Natural killer (NK) activity of normal human peripheral blood lymphocytes against erythroleukemic cell line K 562.....115-126
Y. Tanaka. Natural killer (NK) activity in children with acute lymphoblastic leukemia.....127-133
Y. Tanaka, T. Sakano and T. Usui. Natural killer (NK) activity in patients with chronic granulomatous disease.....135-139
G. Kajiyama, S. Kubota, H. Sasaki, T. Kawamoto and A. Miyoshi. III. The effect of dietary cholesterol on its biliary concentration and lithogenesity.....141-148
K. Arita, O. Nisida, T. Hiramoto, Y. Kodomari, Y. Aratani, T. Miyazawa, F. Yunus and Y. Nishimoto. Physical exercise in "pulmonary fibrosis".....149-159
T. Sakano, E. Kittaka, S. Hyodo, N. Horino, Y. Tanaka and T. Usui. Effect of neuraminidase on the duration of con tact with con A in lymphocyte stimulation.....161-163

Vol. 30, No. 3, September, 1981

G. Kajiyama, M. Fujiyama, K. Yamada, I. Horiuchi and A. Miyoshi. The influence of aging upon gallstones—changes in serum lipids, lithogenesity of bile and cross-sectional views of stones with age—.....165-174
G. Kajiyama, M. Nakagawa, K. Takata, S. Nakao and A. Miyoshi. Determination of cholesterol and phospholipids of HDL_2, HDL_3 and VHDL in patients with atherosclerosis and diabetes mellitus.....175-182

T. Miyazawa, H. Nakagawa, M. Hiramoto, K. Arita, T. Hiramoto and O. Nishida. Ultrastructural study on the alveolar-capillary injury with pulmonary edema induced by oleic acid in dogs. ····183-190
Y. Ogawa, M. Kodama, N. Ito, O. Kodama, Y. Kato, T. Matsuyama and H. Ezaki. Experimental studies on developmental mechanism of acute hemorrhagic gastric ulcers with emphasis on the effects of histamine.····191-201
K. Arita, O. Nishida, T. Kobayakawa, M. Hiramoto, H. Arita, K. Fujiwara, S. Nakanishi, H. Fukuhara, M. Obi, N. Mitao, F. Yunus and Y. Nishimoto. Chest X-ray findings on pyrophyllitosis. ····203-213
G. Kajiyama, T. Kawamoto, C. Fukuhara, I. Horiuchi, M. Nakagawa and A. Miyoshi. The effect of pantethine, a precursor of coenzyme A, on bile acids and lipids in rats fed with a cholesterol diet.····215-220
G. Kajiyama, K. Oyamada, S. Nakao and A. Miyoshi. The effect of diabetes mellitus and its treatment on the lithogenesity of bile in man.····221-227
R. Matsuura. The enhancing effect of cytochalasin A on concanavalin A-induced superoxide anion release from polymorphonuclear leukocytes.····229-236
Y. Kobayashi and T. Usui. Effect of neurotropin on the oxygen consumption and adherence capacity of polymorphonuclear leukocytes of peripheral blood.····237-241
Y. Kobayashi, T. Sakano, K. Hayashi and T. Usui. Opsonic activity of agammaglobulinemia serum determined by oxygen consumption capacity of leukocytes.····243-246
A. Sumimoto, K. Ishizu, H. Takahashi, S. Yamada, T. Numata, S. Yamamoto, T. Yamura and A. Ishii. Correlation between *Dermatophagoides pteronyssinus* and *Dermatophagoides farinae* in house dust mites in chronic urticaria.····247-250
S. Yamamoto. Histaminase and its inhibitory factor in guinea pig skin.····251-254

Vol. 30, No. 4, December, 1981

G. Kajiyama, K. Takata, H. Matsuura and A. Miyoshi. The effect of experimental hemorrhagic shock on serum HDL-level in rabbits.····255-261
G. Kajiyama, C. Fukuhara, K. Oyamada, I. Horiuchi, M. Nakagawa, K. Takata and A. Miyoshi. Determination of serum bile acids in hepatobiliary diseases by gas liquid chromatography (fasting serum bile acid levels and endogenous bile acid tolerance test).····263-271
G. Kajiyama, K. Takata, I. Horiuchi, K. Oyamada and A. Miyoshi. HDL and its subfractions in patients with chronic liver diseases.····273-279
N. Toki, S. Takasugi and H. Sumi. Immunochemical properties and molecular forms of urokinase.····281-286
Y. Higashi and N. Yata. Effect of bovine serum albumin on the absorption of sulfonamides in the rat.····287-291
E. Hatano, K. Tsuge, Y. Ikuta, Y. Miyamoto, K. Yoshioka and N. Hiramatsu. Denervated changes in mucle fibers and motor end-plates. ····293-299
S. Kubota, G. Kajiyama, H. Sasaki, I. Horiuchi and A. Miyoshi. Lipid metabolism in the development of cholesterol gallstones in hamsters. IV. The effect of essential phospholipids and plant sterols on the biliary lipids.····301-309
K. Inai. An estrogen-dependent endogenous peroxidase in uterine epithelial cells of neonatal rats. ····311-338
M. Kobayashi, T. Tanaka and T. Usui. Lysosomal enzyme release from polymorphonuclear leukocytes in patients with chronic granulomatous disease: the effect of hydrogen peroxide on released enzyme activities.····339-344
M. Kambe, T. Tsubokura, T. Kobayakawa, M. Ogoshi, M. Hiramoto and C. Mittman. Study on mechanical properties of lung between smokers and nonsmokers.····345-350
T. Sakano, N. Okuda, N. Sakura, H. Yahata, Y. Tabe, S. Eno, H. Kurogane and T. Usui. Captopril in hypertensive emergencies.····351-354
Y. Naito. Studies on experimental colon tumorigenesis in rats. 1. Strain differences in incidence, location and tumor types of 1, 2-dimethylhydrazine-induced tumors.····355-362
